

CFS: Call for Students

Welcome to Join the iMUSE Group of Visual Computing
Center, CSSE, SZU

Intelligent Multi-Sensing Research Group (iMUSE), led by [Dr. Qi ZHANG](#) (qi.zhang.opt@gmail.com), is a group of the Visual Computing Research Center, Shenzhen University ([VCC](#), SZU, led by [Prof. Hui Huang](#)). We are a new research group of young researchers dedicated to solving real-world problems, benefitting the people and the community, and broadening the knowledge edge of computer vision, graphics, and artificial intelligence algorithms & systems. If you are interested in the following research areas, we may be a perfect fit for you:

- Crowded scene analysis, human simulation;
- 3D vision, BEV, multi-camera surveillance (tracking, detection);
- 3D scene/object reconstruction, 3D scene understanding;
- Lightweight algorithms on embedded device, etc.

See more at here:

We aim at high-quality publications (CCF-A) and each student is highly encouraged to have at least one good paper before graduation.
